DETAILED ACTION

1. This action is responsive to the amendment filed on 9/10/2007.

This action is made Final.

2. In the amendment, claims 72-80 have been added. Claims 4, 10, 12-18, 23, 25-26, 28, 30-36, 41, 43, 45, 47, 49-55, 60, and 62-80 are pending in the case. Claims 63-65 are independent claims.

Priority

3. Acknowledgment is made of applicant's claim for domestic priority under 35 U.S.C. 119(e), and based on U.S provisional application # 60/228,853 filed on 8/29/2000, which papers have been placed of record in the file.

Drawings

4. The drawings filed on 8/29/2001 have been approved by the examiner.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it

Art Unit: 2178

pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 4, 10, 12-18, 23, 25-26, 28, 30-36, 41, 43, 45, 47, 49-55, 60, and 62-80 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 63 recites “whereby when one of the participant's requests to view the presentation after watching at least a portion of one or more of the dynamic rich media objects in the presentation, the one or more stored participant-progress tracking fields in the database return the requesting participant to where that participant left the multimedia presentation” in last paragraph. The Examiner was unable to find in the specification where fields return the participant to the place where the participant left the presentation in a manner enabling to one of ordinary skill in the art.

Claims 64-65 also contain the same limitation as claim 63 above, and therefore stand rejected based upon the same reasons.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 4, 10, 12-18, 23, 25-26, 28, 30-36, 41, 43, 45, 47, 49-55, 60, and 62-80 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 63 recites “whereby when one of the participant's requests to view the presentation after

Art Unit: 2178

watching at least a portion of one or more of the dynamic rich media objects in the presentation, the one or more stored participant-progress tracking fields in the database return the requesting participant to where that participant left the multimedia presentation” in last paragraph. It’s not clear how fields can return the participant to the place where the participant left the presentation, since fields are mere data.

Claims 64-65 also contain the same limitation as claim 63 above, and therefore stand rejected based upon the same reasons.

Allowable Subject Matter

9. Claims 4, 10, 12-18, 23, 25-26, 28, 30-36, 41, 43, 45, 47, 49-55, 60, and 62, 66-80 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

10. Applicant's arguments with respect to claims 4, 10, 12-18, 23, 25-26, 28, 30-36, 41, 43, 45, 47, 49-55, 60, and 62-80 have been considered but are moot in light of the objections/rejections above.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2178

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
